

# WHY STUDENTS?

Operation Smile believes in the power of youth to create a compassionate world. From the hundreds of Operation Smile clubs in schools and universities around the world, to the student volunteers selected to join our international missions, we depend on young leaders to build awareness, raise funds and tell their peers about our work.

If you'd like more information on how you can join the 18,000 students currently enrolled in Operation Smile Student Programmes worldwide, we want to hear from you!

## WHAT CAN YOU DO?

- **Student Clubs:** set up a club with your friends and meet regularly to organise awareness and fundraising events.
- **Fundraise:** It costs as little as **£150** to give a child a new smile, what are you waiting for? Contact us to receive a free collection tin, or speak to us about organising a bucket collection to get you started.
- **International Student Leadership Conference:** Join our annual conference to meet over 500 likeminded people from around the world, develop your leadership skills and learn more about Operation Smile.
- **Volunteer on a mission:** Students at school and university who have joined a club or raised money for Operation Smile can apply to join one of our international medical missions and see our life-changing work for themselves.

Contact us at [students.uk@operationsmile.org](mailto:students.uk@operationsmile.org) or call us on **02034755126** to find out how you can get involved!
